Nexus Cloud SLA & Security Policy - Section 1

NEXUS ENTERPRISE SERVICE LEVEL AGREEMENT (SLA)
Document Ref: NEX-SLA-2026-V4 | Page 1

1. UPTIME COMMITMENT & INFRASTRUCTURE GUARANTEE
Nexus Cloud guarantees a 99.95% monthly uptime percentage for all Production API instances.
If the uptime falls below 99.95% in any billing cycle, the customer is eligible for service credits:
- 99.0% to 99.95%: 10% credit of the monthly subscription fee.
- 95.0% to 99.0%: 25% credit of the monthly subscription fee.
- Below 95.0%: 50% credit of the monthly subscription fee.

2. SUPPORT SEVERITY LEVELS & INCIDENT RESPONSE TIMES
- Severity 1 (Critical Outage): Production system down, core APIs unresponsive. Initial response within 15 minutes, 24/7/365.
- Severity 2 (Major Impairment): High impact with workaround available. Initial response within 2 hours during business hours.
- Severity 3 (Minor Inquiry): General configuration or feature request. Initial response within 8 hours.

3. DATA ENCRYPTION & SECURITY PROTOCOLS
All customer payload data is encrypted both in transit and at rest:
- Data in transit: Mandatory TLS 1.3 transport encryption across all external API endpoints.
- Data at rest: AES-256 encryption across all primary databases, object stores, and snapshots.
- Cryptographic keys are rotated automatically every 90 days via AWS KMS Hardware Security Modules (HSM).

4. COMPLIANCE & AUDIT ASSURANCE
Nexus undergoes annual independent third-party audits and maintains active compliance certifications:
- SOC 2 Type II compliance report available under NDA.
- ISO/IEC 27001:2022 certified information security management system.
- Full compliance with EU GDPR and California CCPA regulations.

5. ACCOUNT TERMINATION & DATA RETENTION SCHEDULE
Upon official termination or expiration of the subscription agreement:
- Immediate Account Freeze: Read-only access is preserved for 30 days following termination to allow data export.
- Customer Data Deletion: Following the 30-day grace period, all active production tenant data is cryptographically purged.
- Disaster Recovery Purge: Encrypted secondary backups and replica snapshots are permanently expunged within 90 days.
- A signed Certificate of Data Destruction is provided to Enterprise tier clients upon request.
